Strengths & Opportunities

- aggregation for impact = more donor support
- more progressive partners means less diffusion of value + identity
- could broker progressive caucus to maintain some structural power.
- possibility of representing freelancers in new structure.
- make TMC more diverse.

Concerns & Weaknesses

- much STU unknown
- most concerns remain same as under AAN clone - BUT we would retain larger programmatic value presence and possibly structural power
- Conversations more hypothetical than AAN merger.
- UNKNOWN LEADERSHIP COMPONENT
