Dear John,

This letter will confirm the intention of Voices of NY to publish on our website two upcoming stories by Feet in 2 Worlds as well as an interactive map that are part of the debut issue of the Feet in 2 Worlds online magazine.

The stories are about Colombian immigrants in New York and New Jersey investing in retirement homes in Colombia, and recent changes in the DREAMer movement. The interactive map will compare housing prices in New York City's five boroughs to prices in the home countries of many NYC immigrants. We agree to coordinate publication of these stories with Feet in 2 Worlds, to share them on social media, and to share analytics information about these stories with The Media Consortium's metrics measurement project.

We look forward to working with you as part of our ongoing partnership with Feet in 2 Worlds.

Sincerely yours,

Garry Pierre-Pierre
