NEWS IN THE PUBLIC INTEREST

March 15, 2014

Dear TMC:

Public News Service is appreciative of the opportunity to work collaboratively with multiple websites under the leadership of Feet in Two Worlds. We commit to joint publication of similar content related to Immigration issues with a 1-2 day period.

For us, publication means broadcast, online and print versions, in English and Spanish where possible, distributed through our local news services to all the other media outlets in a given state or region.

At this time, we are committed to 5 different stories (some of them may be in Spanish as well as English); states to be determined based on final content.

In addition to production, distribution and tracking of the other media pickup, PNS will also promote all the stories across our social media channels in a coordinated push.

Thank you for your consideration of our joint proposal.

Best regards, Lark
